

Celebrating 25 Years of the Dover Society

Compiled by Derek Leach

Foreword

This special edition of our Newsletter celebrates the first 25 years of The Dover Society and is dedicated to all those members who have served the Society in any way since 1988. This has taken many forms including serving on the Executive Committee or a subcommittee, representing the Society on other bodies, editing the newsletter, arranging speakers and social events, recruiting members, managing the finances, engaging in the many physical projects, giving talks, writing reports and articles, proofreading, distributing the newsletter, providing refreshments, washing up and running all those raffles. Without all these folk and their contributions, large or small, there would be no Society.

Perhaps a second dedication may be allowed: to that frustrated member who once said, 'The Society never does anything!'
