elsewhere? Were they afraid to speak out, and who could they have told? Eliza Ellender is the real enigma. She seems genuinely fond of Annie, helps her, makes sure Davies does right by her, gets seriously involved in the arrangements for the birth and the ongoing support of mother and child, keeping the money flowing, and yet has an active role in the conspiracy to keep everything secret. Most amazingly, she takes a trip to France to find an orphanage. Did she speak French? Whatever relationship she had with Davies, it was more than cook and employer.

Perhaps the last word should go to the editor of the Dover Chronicle who, in the Saturday 20th July issue, castigates Davies, saying he has disgraced his sacred profession, is discreditable and untrustworthy. The paper regrets the meagre recompense that is all the Bench could award and says of Davies, "Let him –

if he would answer to his God, to conscience and to his fellow men – make every amend which now remains in his power to the fallen one and her family. He has wealth: let the poor seduced girl and her unfortunate child be kept from want, and her blighted circumstances, for which he is responsible, be lightened as much as is possible."

NOTE. It is notoriously difficult to translate historic monetary sums into modern values. The proportion of income spent on essentials such as food, clothing and accommodation varies hugely over the centuries. Additionally, live-in servants would receive these basics "free," so what we think of as pitifully low wages (Annie might have earned £20 pa) was theirs to spend as they wished. For example, 7/- in 1861 equates to a purchasing power of £35 today but, comparing the wages of the average worker, it would be closer to £274.
