Mr Sutton said that he had attended the site meeting of the DDC where the positioning of the Grappling Iron was determined. It will be placed in accordance with the Society's recommendation.

He also reported that he had not, as yet, received a reply to his letter to the Charity Trustees concerning the whereabouts of their commercial properties.

6) The Secretary.

Mr Naylor detailed various items of mail which had been received since the last meeting including a letter from Maidstone asking for publicity for a forthcoming book, which, after some discussion it was agreed that no further action should be taken as the author was not a member of the Society and the contents had very little to do with the town of Dover.

7) The Treasurer.

Capt. Weston distributed copies of the monthly Financial Statement and said that the Wine & Wisdom evening had produced a profit £133.35. It was agreed that £60 be donated to Mr Cliff Taylor's choice of charity. This was in line with previous years. Mr Leach reported on the talks which had been held with Mark Frost of the Dover Museum on the custody of the Budge Adams papers. The Museum has agreed to our terms and a loan agreement is to be prepared setting out full details and conditions of the loan. It appears that the transferring of the slide collection to CD will take several months to complete, volunteers were called for to help in the process.
