

Ferret

A ferret is a small, carnivorous animal belonging to the Mustelidae family. Ferrets have been kept as pets in Europe since times of old. Thought to have evolved from the European polecat, ferrets are inquisitive, playful creatures that get along well with humans, making them popular pets around the world. They have no perspiration glands in the body to allow them to sweat, so they have great difficulty coping with hot climates.

*Assembly instructions on pages 1 and 2, and pattern on page 3.

★ Assembly Instructions

- 1) Carefully cut out the parts.
- 2) Fold along the dotted lines, making mountain or valley folds as indicated.
- 3) Follow the order indicated in the instructional diagrams, and attach the parts to assemble.
(Read the Explanation of Symbols for more information.)
- 4) Your paper craft model is finished!

★ Tools

Scissors, glue (We recommend craft glue.)

★ Caution

Keep scissors and glue away from small children.
Be careful not to cut your fingers when using scissors.
Fold the folding lines before gluing.

★ Explanation of Symbols

————— Cut line

- - - - - Mountain fold

- - - - - Valley fold

△ **Numbered glue tabs**
Glue the parts together in the order indicated by the numbers.

△ **Glue tabs with symbols and part names**
These tabs are to be glued onto the matching parts, which name is indicated on the tab.
